Annual Report for 2006

Organization Overview

ThyCa: Thyroid Cancer Survivors' Association, Inc. <www.thyca.org> is a national, all-volunteer non-profit 501(c)(3) organization of thyroid cancer survivors, family members, and health care professionals. ThyCa is dedicated to support, education, and communication for thyroid cancer survivors, their families, and friends, as well as awareness for early detection, outreach to health care professionals and the public, and thyroid cancer research fundraising and research grants. ThyCa's Tax ID number is 52-2169434.

Board of Directors, December 2006

Leah Guljord, Assistant Chair, Florida	Kurt Alexander, Gen'l Counsel, Florida	Ron Grafman, Maryland
Tammy Kilhullen, Treasurer, Texas	Joel Amromin, California	Peggy Melton, Texas
Jo Walker, Rec. Sec., Arizona		

Message from the Board Chair

Dear Friends,

In 2006, we marked the 11th anniversary of ThyCa's beginning in 1995. ThyCa continues to reach out and serve people in ever-broadening ways, thanks to the donated talents of hundreds of dedicated volunteers.

Thyroid cancer survivors, family members, friends, and health care professionals gave tremendous support during 2006. Many volunteers are coping with the challenges of their own thyroid cancer. Some have lost loved ones to this disease. We are extremely grateful for the outstanding dedication of our volunteers, and the support of our generous donors and organizational supporters.

Again this year, ThyCa increased and strengthened our network of free resources, available worldwide. We expanded our award-winning educational web site and free downloadable publications. We held a wide variety of successful educational meetings, including support groups, regional workshops, and our annual international conference.

As we all dream of a cure for all thyroid cancer, we are proud to continue to award thyroid cancer research grants through our alliance with the American Thyroid Association. Thanks to everyone's generosity, our revenues were more than \$300,000 in 2006. Every dollar contributed to ThyCa goes directly to support our wide array of services, awareness and outreach, and research funds. We are proud of the fact that 100% of all money raised goes directly to ThyCa's operations and research efforts,

We are excited about initiatives ThyCa has organized, and about our constructive alliances with medical professionals and endocrine and cancer associations. We will continue to strengthen our support for everyone whose life has been touched by thyroid cancer, to ensure that no one feels alone as they cope with this disease.

This Annual Report focuses on ThyCa's services and accomplishments during 2006. Please visit our web site often <www.thyca.org>. We update it often, weekly or more frequently, with thyroid cancer information and the latest news about ThyCa services and coming events, as well as new services and resources.

We look forward to the future, committed to working together and further strengthening our efforts to help us all.

Wishing you all the best of health,

Gary Bloom
Chair, Board of Directors

Medical Advisory Council

ThyCa appreciates the valuable information and guidance from the many thyroid cancer specialists and other professionals who are members of our Medical Advisory Council.

These specialists and numerous other physicians and other professionals give ongoing input and review for the medical information on our web site, participate in our events, and help ThyCa in numerous other ways.

Our thanks to all these professionals for the care and treatment they provide, and for their support of patient well-being and the efforts to find cures for all thyroid cancer.

Service Overview: Survivorship Education, Support, Resources, Public Awareness

Our free education, support, awareness, and outreach serve people being tested, treated, or monitored for any type of thyroid cancer, as well as health care professionals and the public. These free services are made possible by the efforts of numerous volunteers and in-kind donations. Funding comes from membership dues, individual donations, and unrestricted operating grants. Among our 2006 accomplishments:

Web Site www.thyca.org. Our award-winning educational web site, expanded to more than 600 pages, plus links to key medical information and patient and caregiver support resources. During 2006, our web site received more than 220,000 visits each month from survivors, caregivers, and health care professionals. Numerous leading thyroid cancer specialist physicians provide ongoing input and review of the web site's medical content.

New Pediatric Thyroid Cancer Web Site.

<http://www.thyca.org/pediatric/>, This resource, developed through volunteers' commitment to sharing, gives patients, families, and medical professionals ready access to key information and support for coping with one of the rare thyroid cancers, which can be either differentiated thyroid cancer (papillary or follicular) or medullary thyroid cancer.

Expansion of the Anaplastic Thyroid Cancer Web Site.

<http://www.thyca.org/atc/>. This resource, developed through volunteers' commitment to sharing, gives patients, families, and medical professionals ready access to key information about one of the most aggressive of all cancers.

Local Support Groups. Our local support groups increased to more than 60 groups in 35 states. Support groups provide important face-to-face support and local networking to thyroid cancer survivors and caregivers.

ThyCa Person to Person Network (TPPN). This one-on-one support service matches patients around the globe to volunteers with the same type of thyroid cancer.

E-Mail Support Groups. ThyCa's nine e-mail groups had over 7,500 participants at year-end, providing support and encouragement 24 hours a day.

One-to-One Support and Outreach. Our Person-to-Person Network, Toll-Free Number, and Correspondence Team served more than 4,000 individuals and organizations in 2006. We mailed materials to over 4,000 physicians, hospitals and community groups.

Free Low Iodine Cookbook. Our expanded 5th Edition (2005) of our acclaimed free downloadable Low Iodine Cookbook is highly praised and used by thyroid cancer survivors, caregivers, and friends worldwide. It's available on our web site and by mail. We encourage you to share it with your medical team. Medical advisors and other committed medical professionals provided the latest information for the low-iodine diet. We also published one-page Low Iodine Diet Guidelines in both English and Spanish.

ThyCa Journeys Newsletter. We distributed our free online newsletter to more than 10,000 people, and published it on our web site as well.

Spanish Translation. We have begun translation of web site content. These materials are available on the web site. There will be more to come in 2007.

Workshops and Guest Speakers. ThyCa sponsored free one-day Regional Workshops in the Mid-Atlantic Area (Takoma Park, Maryland), Midwest (St. Louis area), and New England (Boston). These events drew more than 300 participants. Numerous physicians and other specialists spoke at these workshops as well as at many ThyCa support group meetings.

Annual International Conference. Our 9th Annual International Thyroid Cancer Survivors' Conference in Orlando, Florida, featured more than 60 speakers and drew more than 400 participants from 37 states, District of Columbia, and 3 provinces of Canada, Costa Rica, and the United Kingdom. The 10th International conference will be held on October 19-21 in San Francisco, California, The 11th International Conference will be held in St. Louis, Missouri, in October 2008.

Thyroid Cancer Awareness Month. ThyCa sponsors Thyroid Cancer Awareness Month each September. Activities year-round raise awareness of thyroid cancer, early detection, treatment, and lifelong monitoring. ThyCa volunteers, medical professionals, and community organizations distributed awareness materials and reached out to others, to encourage people to get neck checks for early detection, and to underscore the need for more research to find cures for all thyroid cancer.

Thyroid Cancer Awareness Brochure Features Actress Catherine Bell. We have distributed over 90,000 free copies worldwide of our Thyroid Cancer Awareness Brochure featuring actress Catherine Bell, co-star of the hit TV series JAG and thyroid cancer survivor.

Media Coverage. ThyCa, thyroid cancer, and ThyCa volunteers around the country received media coverage in articles in local and regional newspapers.

Chernobyl 20th Anniversary Observances. 2006 marked the 20th anniversary of the Chernobyl nuclear accident in Ukraine, where an increased incidence of thyroid cancer later occurred children living near Chernobyl at the time of the accident. ThyCa participated in the seminar organized in Boston and other events and information dissemination,

Thyroid Cancer Wristband, Magnet, and Ribbon Pin Support Outreach and Awareness. The Thyroid Cancer Awareness Wristband, Magnet, Ribbon Pin, and other Spirit Items are being displayed and worn worldwide, helping raise awareness and connect people with all ThyCa's free services and resources. Survivors, caregivers, and friends wear, display, and give them. They are available for order on the ThyCa web site. Proceeds support our support services and thyroid cancer research.

Awareness and Outreach through Exhibits. ThyCa participated in more than 40 events in the USA and Canada during 2006. These included health fairs, seminars; the conference of the National Organization for Rare Disorders; and professional medical meetings of the American Association for Cancer Research, American Association of Clinical Endocrinologists (AACE), American Society for Therapeutic Radiology and Oncology (ASTRO), American Society of Clinical Oncology (ASCO), American Thyroid Association (ATA), The Endocrine Society, and Society of Nuclear Medicine (SNM).

Medical Advisors. ThyCa receives invaluable support, information, review and input on web site material, and participation as event speakers, from our distinguished Medical Advisory Council of 21 thyroid cancer specialists from major centers around the United States as well as from numerous other committed professionals.

Financial Supporters and Grantors. ThyCa's free services, publications, events, and outreach are made possible by our volunteers and from the generous financial support of our members, individual donors, and year-round financial supporters. Our thanks to our 2006 Grantors: Abbott Laboratories, Amgen, AstraZeneca, Fleming & Company, Genzyme Therapeutics, King Pharmaceuticals, and KRONUS.

Thyroid Cancer Research Grants. ThyCa's research funds continue to achieve significant growth. ThyCa marked its fourth year of awarding thyroid cancer research grants. In 2006, ThyCa awarded its 5th and 6th research grants, The recipients are researchers at Cochin Institut, Paris, France, and Johns Hopkins Medical Institutions, Baltimore, Maryland. Our web site has details. All ThyCa Grant awardees are selected through a peer review process by the experts of the American Thyroid Association. All of this occurs because of our collective commitment. Thanks to all who participate in our year-round research fundraising efforts.

Volunteers—Thank You. Thanks to our more than 250 volunteers for the tremendous efforts you contributed. What we are doing ensures that no one who follows us with thyroid cancer will have to feel as alone as we did.

Research and Research Fundraising

To ensure continuing expansion of urgently needed thyroid cancer research, ThyCa: Thyroid Cancer Survivors' Association, Inc., began fundraising for thyroid cancer research in 2001. In 2003, we proudly awarded the first-ever patient-funded Thyroid Cancer Research Grant. We have continued to award research grants each year since then.

ThyCa sponsors two Research Funds. We welcome contributions of any size. Our Thyroid Cancer Research Fund is dedicated to research on papillary, follicular, variants, and anaplastic thyroid cancer. Our Medullary Thyroid Cancer Research Fund is dedicated to research on medullary thyroid cancer.

Thanks to the continuing growth in contributions, ThyCa awarded our fifth and sixth scientific and clinical research grants in 2006, in alliance with the American Thyroid Association. Experts from ATA reviewed the applications and selected the recipients. In Fall 2006, we committed to awarding two additional 2-year grants in 2007 .

Supporters of ThyCa's community, including thyroid cancer survivors, loved ones, and medical professionals, have all joined together in varied ways to raise funds and awareness. Keys to our fundraising success were the ongoing contributions and tribute donations in honor and memory of loved ones and to commemorate special family occasions. We are most grateful to everyone who contributes to ThyCa and makes tribute donations. We also thank the many volunteers who have initiated and organized creative and highly successful individual fundraisers during the year. Our largest event was our Fifth Annual Benefit Dinner/Auction, a wonderful evening of tribute and support, held in conjunction with our annual conference. Further Rally for Research events included outstanding benefit Golf Tournaments, Marathon Runs, and Individual Walks dedicated to ThyCa's research funds.

Through these wonderful efforts, we hope that the future will bring cures for all thyroid cancer.
