2008

Dear Friend,

Thyroid cancer continues to increase in incidence, with new record high numbers of people expected to be diagnosed in 2008. Your wonderful support has made it possible for ThyCa to reach and provide free services to record numbers of people whose lives have been touched by thyroid cancer.

In 2008, we continue to strengthen and expand our free support services, web site, and print publications, serving survivors, caregivers, professionals, and the public around the globe.

I'm writing you with three invitations. We invite you to help raise awareness for early detection, to help connect people with ThyCa's free education and support services, and to increase support for thyroid cancer research. Three ways you can help:

- **Share our free awareness materials** with your friends, relatives, and physicians. Download flyers from our web site, or use the form below to request free materials.
- Tell everyone you know about our events around the year, as well as the **11th International Thyroid Cancer Survivors' Conference** in St. Louis, Missouri, on October 17-19, 2008, and our **Research Fundraising Dinner/Auction** the evening of Saturday, October 18, 2008. Our web site has details. We hope you can attend.
- Donate to ThyCa for general support, the Thyroid Cancer Research Fund (papillary, follicular, anaplastic, variants), or the Medullary Thyroid Cancer Research Fund. Use our web site's secure online form, or mail a donation.

With your help, together we can making a big difference in the lives of everyone with thyroid cancer, and in seeking cures for all thyroid cancer.

With all good wishes for your health,
Sincerely yours,
Gary Bloom
Executive Director

P.S. Thank you very much for your help. We look forward to hearing from you.
