

University of Chicago Medicine invites you to:

THE EVOLUTION OF THYROID CANCER

TUESDAY, FEBRUARY 19, 2013

Thyroid cancer incidence has steadily risen over the last two decades.

Thyroid cancer is the:

- 2nd most common cancer in women under age 45
- 5th most common cancer in women of all ages

Join Raymon Grogan, MD, from the University of Chicago Medicine for a discussion about the cause of rising thyroid cancer rates and what treatment and prevention strategies are currently being used to curb the rise.

LOCATION:

**Gilda's Club Chicago
537 N. Wells St**

TIME:

6:00 p.m. to 7:00 p.m.

Raymon Grogan, MD
Associate Professor of Surgery
Director of the Endocrine
Surgery Research Program

Admission is free.

To register, please call
