Welcome!

On behalf of ThyCa, welcome to our 4th Annual ThyCa Fundraising Dinner/Auction to benefit thyroid cancer research. I am extremely proud to be a part of this very important event. The money we raise tonight will help make a difference in the lives of those affected by Thyroid Cancer....doing it now will make it happen!

Tonight, we celebrate and honor our dedicated, hard working and much-loved VOLUNTEERS...the true heart and soul of our organization. We salute their spirit of generosity, and give thanks for their many wonderful and varied contributions to ThyCa.

To date, our fundraising has provided the awarding of research grants beginning in 2003. Moving forward, we have allocated funding this year for two, 2-year research grants beginning in 2005. What an exciting milestone we have achieved by working together!

Our special thanks to all our dear friends, and extended ThyCa family, for your loving and spirited support of our research fundraising. Wishing you all good health for now and always, as we continue our research fundraising in hope of finding a cure for all thyroid cancer.

Joann Chaikin Eskenazi
ThyCa Fundraising and Event Chair

ThyCa's Research Funding

ThyCa: Thyroid Cancer Survivors' Association, Inc., and our community of thyroid cancer survivors, loved ones, and medical professionals have joined together to raise funds for thyroid cancer research. Alone, one person can make a difference, but together, we have many more resources available, enabling us make a tremendous difference!

ThyCa has two Research Funds. One fund supports research of follicular-cell-derived thyroid cancer, including papillary, follicular, anaplastic, and variants. Our second fund supports research of medullary thyroid cancer.

Both funds welcome all contributions. ThyCa is a 501(c)(3) all-volunteer nonprofit organization, and all donations are tax deductible.

Our Research grants are open to all researchers and institutions. An independent expert panel of the American Thyroid Association (ATA), the leading professional organization of thyroidologists in the U.S., evaluates the grant proposals and selects the projects to be funded. ATA donates this crucial peer review service to ThyCa, ensuring that 100% of all money we raise for research does go directly into research.

In 2003, ThyCa proudly awarded our first thyroid cancer research grant, and we continue to award at least one grant per year.

We invite you all to join us in our quest to find a cure for all Thyroid Cancer. Our heartfelt thanks to you all for your wonderful support of ThyCa.

Group Facilitator Value: \$200

- #647 Nuclear Drawings from Seattle Support Group Member**
Leslie Sinclair's Nuclear Drawings series acknowledges the
immensity and intrusiveness of contemporary life-saving
radioactive medical interventions.The original is 8 1/2 inches
high x 6 1/2 inches wide. Leslie Sinclair did this small
watermedia drawing during the hypothyroid period of treatment
for thyroid cancer. Diminished energy levels limited the size of
her work, and she was only able to speak in a creaky whisper.
She incorporated her thoughts and personal calendar entries
into the piece, along with her interpretation of an image of the
Screw Pine Tree from Yemen. This drawing was influenced by
the experience and informed by her reading of a text, illustrated
with striking photographs, about the discovery of coffee beans in
Yemen.
- #648 Nuclear Drawings from Seattle Support Group Member**
