

1st Annual Thyroid Cancer Awareness Month Event

Duke Cancer Institute, in partnership with the Thyroid Cancer Association of NC, will host its 1st Annual Thyroid Cancer Awareness event to promote awareness for early detection, education and survivorship for thyroid cancer patients and caregivers.

SEPT
28

Saturday
September 28, 2019
8am – 12pm

Duke Cancer Center

20 Duke Medicine Circle
Durham, NC 27710

Parking is at the Duke Medicine Circle Garage at 40 Duke Medicine Circle, Durham, NC 27710.

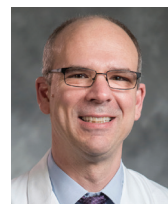

Event held in the front atrium. A light breakfast (fruit, pastries, etc) and beverages (coffee, water, juice) will be provided.

Register online at
[DukeHealth.org/
ThyroidCancerEvent](http://DukeHealth.org/ThyroidCancerEvent)

Event Topics Include:

- What are the surgical options/best management for thyroid cancer?
- TSH suppression – Treatment overview (why? how long? etc.) and impacts on long-term health (i.e. cardiac, bone loss, etc.)
- Thyroid hormone replacement - side effects (fatigue, weight gain, brain fog) and what can be done to help when you are facing these issues
- Guidelines - what do they say regarding my situation and how are they changing in practice
